1.1. General Notes

- :LiPersonStanding: 8:45
- :LiForkKnife: desayuno (2 Knäckebrot) (09:28)
- M 12-17:30 (18:38)
- :LiGlassWater: (19:50)
- :LiForkKnife: cenar (un panecillo) (20:20)
- :LiGlassWater: (20:20)
- :LiGlassWater: (21:59)
- :LiGlassWater: (22:17)
- :LiBatteryCharging: A7 (22:21)

1.2. Lists and Tasks

1.2.1. Deadlines

```
formulas:  
  Days: deadline.relative()  
  overdue: if(formula.Days.toString().contains("ago"), "!!!", "~")  
properties:  
  file.name:  
    displayName: File  
  file.mtime:  
    displayName: Modified today  
  file.folder:  
    displayName: Folder  
  note.deadline:  
    displayName: Deadline  
  formula.Days:  
    displayName: Due...  
  formula.overdue:  
    displayName: Prio  
views:  
  - type: table  
    name: Default view  
  filters:  
    and:  
      - "!deadline.isEmpty()"  
      - status != true  
order:  
  - file.name  
  - deadline  
  - formula.Days  
  - formula.overdue  
  - tags  
sort:  
  - property: deadline  
  direction: ASC
```

```
columnSize:  
  file.name: 213  
  file.folder: 159  
- type: table  
  name: View
```

1.2.2. Notes created today

```
formulas:  
  Days: deadline.relative()  
properties:  
  file.name:  
    displayName: File  
  file.ctime:  
    displayName: Created  
  file.folder:  
    displayName: Folder  
  note.creation date:  
    displayName: Created  
  note.deadline:  
    displayName: Deadline  
  formula.Days:  
    displayName: Something due...  
views:  
- type: table  
  name: Default view  
  filters:  
    and:  
      - file.ctime == this.file.name  
order:  
- file.name  
- file.folder  
- formula.Days  
sort:  
- property: creation date  
  direction: DESC  
columnSize:  
  file.name: 243  
  file.folder: 239
```

1.2.3. Notes last touched today

```
formulas:  
  Days: deadline.relative()  
properties:  
  file.name:  
    displayName: File  
  file.ctime:  
    displayName: Created  
  file.folder:  
    displayName: Folder  
  note.creation date:  
    displayName: Created  
  note.deadline:  
    displayName: Deadline  
  formula.Days:  
    displayName: Something due...  
views:  
- type: table  
  name: Default view  
  filters:
```

```
and:  
  - file.mtime == this.file.name  
order:  
  - file.name  
  - file.folder  
  - formula.Days  
sort:  
  - property: creation date  
    direction: DESC  
columnSize:  
  file.name: 243  
  file.folder: 239
```

1.2.4. Open tasks

1.2.4.1. with due date

```
has due date  
not done
```

1.2.4.2. without due date

```
has tags  
not done  
sort by created
```

updated:=dateformat(this.file.mtime, "DDDD, hh:mm a")
